

# Plan: Goodbye Justice Courts

## Jury Duty Is Harrowing In WC Municipal Court

Jury duty in the Walnut Creek Municipal Court is no bed of roses.

In fact, the physical limitations of the jury room and the court facilities in general create a situation of crowdedness, noisiness, nervousness and near-suffocation, according to a woman juror who survived her ordeal last week.

Mrs. W. R. Nodder of 2030 Strand Road, Walnut Creek, who served on the jury which found Charles Eaddy guilty of resisting arrest, has nothing but admiration for Judge Betsy Fitzgerald Rahn and the court employees.

**BUT, AS SHE** explained to The Sun, "... In this court we have many unhappy people caught up in distressing situations. We also have a number of people in the judicial function. Then, too, there are the jurors.

"Everyone involved deserves better working environment than this shabby substitute," she said.

Will you, the reader, be serving on the Walnut Creek Municipal Court jury this summer? Here is the story from Mrs. Nodder:

"Last week it was my responsibility and privilege to serve as a juror in the Walnut Creek Municipal Court. This proved to be at once a deep felt experience and an amazing revelation.

"QUESTIONS CAME in a flood—how long has this been going on? Why? The completely full schedule attests to the need for this people's court. Why can't decisions be made and action taken to provide an appropriate place for it?

"Where is the courtroom which the papers reported to be authorized many months ago? Why is it not ready? Is the remodeling even in progress? Why not?

"When will satisfactory quarters be readied? In the meantime, jury trials and other court business must be carried on in a room where not only abundant physical discomfort is involved but valuable time is wasted in a constant effort to maintain the quiet essential for hearing testimony, arguments and instructions.

"There can be no question of need for a new location. The inadequacy of the present facilities is appallingly evident to anyone even stepping inside the door at 1690 Locust Street.

"A **FOYER-BUSINESS** office adjoins the courtroom, the two being separated by a wall which reaches only part way to the ceiling. In the courtroom constant effort is required to shut out mentally the clicking typewriters, voices and shuffle going on in the reception area as the day's business is carried on.

"In spite of physical disadvantages, the court itself is conducted in a most admirable manner. The judge is businesslike, impartial and able.

"The court attendants and office staff are pleasant, helpful and efficient. Their praiseworthy behavior alone is responsible for fully dignifying a situation which has so many unsuitable elements.

"Defects observed by the jurors were varied and numerous. Lack of space seems to head the list.

"VERY **OBJECTIONABLE** is the manner in which the courtroom is partitioned off with a divider allowing a large area at the top. Crowding is apparent everywhere. If jurors No. 7 to 12 dared tilt their heads back a little there was a clatter from the Venetian blinds.

"Last week smiles of amusement were inevitable when the metal binding at the edge of the step just in front of the witness chair became loose and threatened to trip witnesses and attorneys alike. The watchword became "Careful, careful" to those treading the step.

"So small was that area that when the witness chair rolled a few inches out of line its occupant found himself almost in the lap of juror No. 1.

"When it was necessary to recess the court for a short session to take on other matters everyone, jurors, witnesses, attorneys, spectators, had to go out to the sidewalk and remain in the small reception area, silent and tiptoeing.

"THIS CAN CAUSE a rather awkward togetherness of some-times resentful opponents.

"Ventilation was another annoying problem. Open doors admitted excess noise as well as draughts which harassed the jurors sitting farthest from the bench.

"These jurors had to ask repeatedly for testimony or remarks to be given again.

"The alleged cooling system is ineffective and does little more than heighten the humidity of a crowded room.

"The jurors expressed relief that our stint of duty was probably completed in the spring as we contemplated the summer and fall atmosphere in those rooms.

"WHILE THE **SERIOUS** importance of our task was made very clear to the jurors and we were always conscious of our heavy responsibility, there were times when our attention was forced toward some of the inadequacies of the jury room.

"This room, the only one available, is essentially a small storeroom which still contains filing cabinets and various boxes of supplies along the walls, and a trash can, among other things, behind a screen.

"There is the long jury table and 12 chairs snuggled around it, not so much for camaraderie as from lack of space.

"If anyone wished to move from one end of the room to the other, people seated at the side of the table had to stand, push their chairs under the table and step aside to allow passage.

"A **NOTE OF NEAR DESPERATION** was evidenced by the necessity to store boxes of case files in a small cubicle which also contained a posted note, "Girls, please jiggle the handle after flushing.

As to ventilation in the jury room, the only windows here are inside windows opening into the adjoining repair garage. There is a door on that wall also.

"Since the entry from the courtroom cannot remain open during deliberations, this garage affords the only "ventilation" to stifling jurors.

"Our experience was that, as the room became stuffy and the door was opened for relief, we were met by an influx of something which seemed more than air in its robust and vigorous quality—the oppressive smell of machine oil, gasoline, motors and all the assorted vapors of a commercial garage.

"We had to make a choice of which stale air we preferred.

"As a citizen who was given a small share in the administration of justice, I feel obligated, in the further pursuit of justice, to voice these detailed observations..."

## McBrien Wants Single, Mobile Justice of Peace

A single municipal court including a branch department with two judges in the central county, and a county-wide justice court, eliminating all other existing justice courts, has been proposed by County Administrator J. P. McBrien.

McBrien's recommendations, which will be considered by the board of supervisors, go further than those of State Supreme Court Justice Phil Gibson, who called for limited consolidation last year.

The supervisors have been asked to introduce an emergency bill in the State Legislature making the change possible.

The new plan would create a single justice court which would travel on a circuit of probably three locations.

Such a system would create jobs for most of the justice court employees except the judges themselves.

This means in this area, Judge Horace Van Gordon of the Danville Court and Judge Wroy Renaghan of the Clayton Court would be out of jobs.

The new municipal court would have a number of judges sitting in various parts of the county, including two in the central county.

Municipal Judges Betsy Fitzgerald Rahn of Walnut Creek and Louis McKannay of Concord would probably keep their jobs, sitting in whatever buildings are decided upon.

## Coll Explains Why the Delay Moving Court

County Supervisor Tom Coll told The Sun this week that the delay in renovating the Veterans Memorial Building on Locust Street, Walnut Creek, as new quarters for the Walnut Creek Municipal Court is due to an effort to save the taxpayers' money.

Coll admitted that the \$40,000-plus project on the memorial building was delayed for months due to efforts to pick out the best suitable building at lowest cost. This involved examination of many sites, including the old Red Cross building on Civic Drive and property on Mt. Diablo Boulevard.

As it stands now, the work may be completed by sometime this summer, but this is not definite, he said.

The memorial building is only an interim solution, said Coll.

Eventually, he would like to see the physical facilities for the two local departments combined into one building in Pleasant Hill, although an alternative would be location in the future Walnut Creek civic center.

Concerning the new quarters in the legion building, Judge Betsy Fitzgerald Rahn said she has not seen any plans.

She said, "We need more room desperately. And I certainly hope the facilities for the jury will be greatly improved."

She added that the jurors sit usually from two to three days a week, and deliberations are usually during a part of one day, but often extending into the night.

**TOUR CHAIRMAN**, Mrs. Heber Smith has announced the houses open from 11 to 4 will be the Henry Hill-designed contemporary of the John Skinners on Oak Arbor Road, Mr. and Mrs. William Sibbetts' Japanese contemporary on Van Tassel Lane.

Also open will be the residence of the Warner Odenthals on Charles Hill Road featuring a top-of-the-world view and a spacious indoor squash court where the art show will be held, and the charming hillside home of Miss Katharine Bennett, furnished in authentic Early American pieces.

## Tennis Returns as A Spring Sport in Foothill League

The Foothill Athletic League Board of Governors held its monthly meeting this week and officially adopted and approved all league athletic schedules for the 1961-62 school year.

One major change in league policy was made by the board when it decided to make tennis a spring sport again.

Last year tennis matches were held in the fall in order to cut down on the many participants in spring sports.

Because no other schools play tennis in the fall and because the standing players do not have a chance to compete in the CIF post-season events which are held in the spring, the switch back to the spring season was made.

In other action taken by the board, San Ramon was given permission to hold an invitational basketball tournament in December.

Piedmont was allowed to participate in the Redwood Empire Invitational Basketball Tournament in Healdsburg in December.

Alhambra also was given the permission to hold a cross country invitational meet in September.

President Gren Jones, principal of Alhambra High School also re-stated the board's policy that members of the press and the public are not allowed to attend the Board of Governors meetings.

Superintendent Neil Parsons was not available for comment.

## Acalanes District Voters Re-elect All Incumbents

Electors in the Acalanes Union High School District voted three members to the school district board of trustees.

Results were as follows: Glenn Allen Jr. (Inc.), 5304; Alla Knudsen (Inc.), 5216; William Lee (Inc.), 4669; Sherwood Knight Jr., 2089; Charles Lohse, 2163; Walter Medak, 1907.

## College District Incumbents Safe

Incumbents retained their seats in Wards 3 and 4 of the Contra Costa Junior College District, Tuesday.

In Ward 4, which includes Walnut Creek, Lafayette and Orinda, O. H. Wohlgenuth had 4819 votes to 3151 for Forney H. Stark, Jr.

In Ward 3, which includes a portion of Pleasant Hill, George B. Gordon had 4766 votes to 2733 for Craig Randall.

## Gas Prices Still Falling; Major Stations at 22.9

Gas prices at most major stations in Walnut Creek and Lafayette dropped another penny in the last week as the gas "war" entered its seventh week.

The asking price for regular is now 22.9.

Alamo, Danville, Pleasant Hill, Orinda, Moraga and Rheem stations are asking a penny more. They likely will follow the example of the Walnut Creek and Lafayette stations this week.

For the past three weeks station owners in Lafayette, then Walnut Creek were the first to follow the drop in prices that originated in Oakland.

**SOME MAJOR** stations in Oakland have now dropped the price of regular to 21.9. If the price stays there, area stations will probably follow suit.

Independent stations in Lafayette have dropped their asking price for regular to 20.9 while their counterparts in Pleasant Hill and Walnut Creek remain at 21.9.

Major stations asking 22.9 for regular are selling their high powered gas at 25.9 while those still asking 23.9 are getting 26.9 for ethyl.

Most independents are asking 23.9 for ethyl at the present time. The "pre-war" asking price for regular was 32.9.

**THE PRICE** slashing started almost two months ago when Willshire continued to cut major station prices by two cents after being bought out by the Gulf Oil Company.

## Local School Districts Would Be Recipients

Area school district men have been busy counting noses and multiplying by \$16.82 to see how much money they will get if the Kennedy administration's "Federal Aid to Education" bill is passed by the U.S. Congress.

The \$16.82 is the amount allowed in the first year for all California elementary and high school districts for each pupil enrolled. The figure, under present proposals, would rise to \$21.37 in three years.

Acalanes High School District's general enrollment of 4260 indicates that it may receive about \$71,000 if the bill passes.

**HOWEVER**, Ross Reagan, business manager, says, "I'm not counting my chickens yet."

Walnut Creek District's enrollment calls for federal monies amounting to about \$65,000.

Lafayette District's 4400-pupil enrollment would indicate a windfall nearly \$74,000.

Orinda educators could expect some \$55,000, with an enrollment of about 3300 pupils.

**ALL OTHER** area districts may arrive at appropriate figures by multiplying pupil population by \$16.82 for the first year the bill is in effect.

The figure grows considerably when applied to Mt. Diablo Unified School District's population of almost 30,000.

Grand total for Mt. Diablo—about half a million dollars.

With this in mind, Mt. Diablo administrators have considered setting two salary schedules for teachers—one for the failure of the federal bill to pass; the other for its success.

**MOST ALL** area districts are now considering teachers and personnel salaries, and this has been discussed by most of them.

However, according to Walnut Creek Superintendent Richard Fickel, the bill as it now stands would allocate the funds for each district's "General Fund", leaving

### People Are Funny

ONE OF OUR early-rising execs swept out the door one morning in bathrobe, pjs & slippers to get his morning paper. There sat the Garbage Man perusing the front page so Our Man, not to be known as less a gent, leaned over & politely asked, "Do you mind if I look at the sports section?"

To recap a long story—One of our Sr. Citizens, no baby at new businesses, decided to try the laundrette venture in Oakland so a popular couple (the P's), good friends of the new wash & dry proprietor, decided to save up all their wash so they could be his first customer on Opening Day.

WELL, YOU know how things go. The plumber was held up, the electrician was late, opening was postponed again & again & by this time, the P's were getting down to their mere nothings so they took their laundry elsewhere, got it washed and then started all over again, saving, this time, hubby's shorts . . . saving & saving them. The laundrette finally opened w/a Bring Your Own Suds (champagne) & Duds & so the story ends happily. Opening Night, which was The Hubby's Birthday, he got the best birthday present ever. He got all his shorts back.

SHORT SHORTS: Reminds us of the Orinda matron who, dashing out one morning early, donned a pair of hubby's shorts (the kind w/red ants crawling all over them) & then, woe was her, she had car troubles & the ants-panties were a secret no more!

IT HAPPENED at the Gilberts' when an organization meeting was being held for the recent Miramonte JAMBOREE . . . Vinnie Gilbert, Food chrmn. for the affr., had all committee-heads sample a variety of baked goods to decide which would make the best dessert for the Big Night.

Then came another Big Decision . . . Should the entertainment precede—or follow the dessert & coffee? At this moment, the curtain rises on our Jean Henderson, who cued in w/the perfect line—"Well, I, for one, certainly don't want to be upstaged by a bunch of tarts!"

OVERHEARD AT A RECENT wine-tasting party: "My wife has three wardrobe closets FULL of clothes & WHAT has she got on tonight? A dress she bought at The Rummage Sale for \$1.50 . . ."

The Grand-Daddy Sale of all at Santa Maria, now over, ended, fini til next year, has already yielded over the \$6000 mark.

Know how to tell a New Mother? Look for the lady w/slightly stiff neck crooked to one side. OURS is probably going to remain permanently that way from staring down into the bassinets & have you ever noticed? EVERYBODY looks at a sleeping babe with w/a head-on-the-side position!

CHARLOTTE CHAPPLE, the dowager-doll of the famous "FLINGS" trio at the Jamboree, was kidded about her disarrayed coif that night just before stage-time — Said friend—"And Who Did Your Hair, Dear?" — "Oh," said Char, "it's by Mixmaster—LADY Hamilton Mixmaster, that is!"

PIGEON STEW: Dear Barbara Bedayne, pigeon authority: I am worried. We had the trees sprayed & the more than a hundred garden-guesting wild pigeons temporarily quartered here are eating the acorns which are covered w/the same poisonous spray. Is this bad for them . . . as well as the birds? (Quite a few of us are in the same STEW!)

YOUR tree-spray men haven't shown yet? Well, just get in & wash all the windows in the house. They will then show up tomorrow! Another recent dinner party preceded the Miramonte Jamboree . . . Ann & Bernie Fries had Claire & Chuck Craig, the Jim Jacksons (they're now in the Islands), Janet & Bob Alvarez, the Alexanders & Zurn Zunicks turning on upon their doorshep for dinner.

A HONEYMOON HOUSE w/iced champagne on ITS doorstep awaited the newlywed Michael Downses—this the thoughtful gift of Faye & Hoppy Hopkins whose Pebble Beach house was the couple's retreat following their April 7 wedding . . .

THE VILLAGER: The Sunday sound of Ian Begg's bagpipes playing a lilting Highland Fling as Sunday traffic streams past on the freeway . . . This is how Bob & Elizabeth Mark solved the problem of keeping their five pups penned, something I wish we'd thought of when our collie had ten puppies all in one fell swoop.

MORE SOCIABLES . . . At the Country Club last Sat. nite they went "Western" for a Barn Dance w/guests like Bobbie & Jack Reiser in their "cowpoke" duds entering the club via a double slide that landed them right in The Hay!

## Orinda Youngsters Above Average Tests Reveal

Results of recently completed achievement testing done with the seventh and eighth grades indicate that the Orinda pupils scored consistently above national norms.

At the eighth grade level 75 per cent of the pupils scored 9.9 or above, which is 12 months or more above grade level at the time the test was given. Eleven per cent scored between 8.8 and 9.8 and 14 per cent scored 8.7 (grade level) or below. The achievement average for the entire eighth grade was 10.5.

In the seventh grade 75 per cent of the pupils scored 9.1 or above, which is 14 months or more above the grade level at the time the test was given. Nine per cent scored between 7.8 and 9.0, and 16 per cent scored 7.7 (grade level) or below. The achievement average for the entire seventh grade was 9.9.

Scores for both grades are higher than last year despite an increase in enrollment at these grade levels, and the opening of the new I. V. Intermediate School. "This speaks well for Orinda children, the school curriculum and the effectiveness of the teachers," commented Joseph Sheaff, district superintendent.

She was stricken at her home on Tassajara Road, Danville, in the morning and died shortly after arriving at an Oakland hospital.

The daughter of Charles and Cynthia Wood, who started farming the historic Wood ranch in 1862, Miss Wood was born on the ranch and had lived there since. She attended the old Sycamore Valley School where she later became a teacher for 30 years.

She was an active member of the Danville Grange for 80 years, authored several books of poetry and served as an amateur historian.

Danville Grange 85 also took part in the rites.

Miss Wood's father came from the east to Marysville in 1853, tried mining for a time, and later operated pack trains from there into Nevada City and Grass Valley.

He married Cynthia A. Rice and came to Danville to manage the ranch then owned by a railroad company. The ranch will observe its centennial next year.

Membership seminars for adults are conducted at the 9:45 a.m. hour.

Child care and a special class for youngsters is provided at the 11 worship hour.

Sunday school will begin at 9:45 a.m. under Kenneth Bull's supervision. The evening service which will follow the BYF meeting at 6:45, will feature the final evening message of Rev. ## Taxpayer Group Asks Law On 3 Elective Jobs

Legislation to make three elective county offices appointive by the board of supervisors has been asked for by the Contra Costa Taxpayers' Association.

If adopted, the measure would take in the positions now held by Tax Collector-Treasurer R. H. Kinney, Coroner-Public Administrator Dr. L. H. Fraser and County Clerk-Recorder Walter T. Paasch.

In a letter sent April 6, Association President L. E. Carbert recommended the board seek a special state act for Contra Costa County only.

He suggested the law be put into effect at the end of the present terms of all three officers January 1, 1963.

"This recommendation is in keeping with those of the Assembly Interim Committee on Municipal and County Government," Carbert said.

Carbert quoted the committee's 1959-61 report, which stated that there should not be a diffusion of political responsibility in the county if a board of supervisors is accountable for county government.

## Grant Awarded To Saint Mary's

A grant of \$1500 has been awarded Saint Mary's College by the Conejo Fund, it was announced today by Brother S. Albert, F.S.C., president.

The grant will be used to assist in the implementation of the Integrated Liberal Arts Program of the College, particularly in the field of science, Brother Albert said.

## Air Pollution Hearings Are Favored

Walnut Creek councilmen seem to agree that a public hearing should be held on financing and means of enforcement of new regulations of the Bay Area Air Pollution Control District.

Councilmen nodded in general agreement, as a letter from J. M. Gill, president of the Industrial Association, was read to them during a recent meeting.

Gill referred to Regulation 2 of the district and "Model Ordinances A and B" for local enforcement.

The model ordinances, said Gill, appear to place "... an undue enforcement burden and expense on the local governments and undue hardship on the industries, commercial installations, schools, municipal buildings, apartments, etc., being regulated without enhancing control of air pollution."

Gill added that he believes that local enforcement should be undertaken "... under provisions of ordinances which are much simpler than the submitted models."

The County Board of Supervisors has already taken a stand favoring the increase in the Air Pollution District's tax rate from one cent to 1.6 cents. It originally favored 2 cents.

The supervisors appear to feel that the enforcement by the county will be financed by reimbursement from the district, and the local enforcement is implied in the bill, although not spelled out.

## Hurry! Sun Sea Tour Is Nearly Ready to Leave!

Better hurry, because time is getting short and The Sun is running out of space on The Sun Suburbia Sea Party leaving for Hawaii May 10.

A happy group of Central Contra Costans . . . more than likely your neighbors . . . have already signed up for the 17-day tour to the Hawaiian Islands, and you should act now if you are going to join them.

It doesn't have to be expensive, either. You can make the tour for as little as \$433.50, a real bargain, or you can pay the standard Sun party price of \$598.50. The difference is your accommodations.

**WHAT DOES THE party include?** Everything but your meals while you are actually in Hawaii. It includes your passage to and from the Islands aboard the luxurious Matson liners Matsonia and Lurline. You will also have your choice of a tour around the island or a catamaran boat tour of Pearl Harbor.

And you will live in luxury at the famous Hawaiian Village on Waikiki Beach.

If you wish to expand the tour to suit your travel needs, this too can be arranged. You may stay longer, include tours of the other islands, or do just about as you please.

**HOW CAN ALL this be arranged?** Just call your local travel agent or Mrs. Eleanor Silverman, who will be The Sun's representative on the trip. She can be reached at AT 4-4444 or AT 3-3030.

So get out your aloha shirts and

## Shell Names Directors of Research

Shell Development Company has appointed two local men as directors at the Emeryville Research Center, according to Dr. T. W. Evans, vice-president and general manager.

The directors, two of four who will be responsible to the manager of chemical research and development, are:

Dr. C. R. Nelson of Orinda, director of industrial chemicals research and development. Until this appointment he was head of the chemical process engineering department.

R. W. Martin of Walnut Creek, director of plastics and resins research and development. His most recent assignment was as head of the thermoplastics department.

Nelson received his B.S. degree in chemical engineering from the Carnegie Institute of Technology and his M.S. and Ph.D. degrees from the University of Michigan.

He joined Shell as engineer in 1941. He was named head of the process (later, chemical process) engineering department in 1950, the position he held at the time of his appointment.

Martin attended Bethany College, receiving his B.S. degree in chemistry in 1940. He obtained an M.S. degree in 1942 at Utah State Agricultural College.

He joined the Emeryville Research Center staff as a chemist in 1952 and was appointed a research supervisor two years later. He was an acting assistant department head when he took an assignment as technical assistant to the president of Shell Development in New York in 1958.

For the past year and a half he has been head of the thermoplastics department.

## Lee Russell To Acalanes District Post

Leland S. Russell, Las Lomas High principal, has been appointed Acalanes High School District assistant superintendent for education, it was announced.

The vacancy was created with the death of Dr. Max M. Appleby three weeks ago.

Russell has been principal of the Walnut Creek school since it was established in 1951.

Before that he was on the staff of Acalanes High School where he organized the counseling department and served as the district's first head counselor.

His first position in the Acalanes District was as a teacher of mathematics and science, starting in 1941, after having taught at McCloud High School in Siskiyou County.

Last year Russell received national recognition by his appointment to the Board of Trustees of the College Entrance Examination Board for a three year term.

He is currently regional director and member of the Executive Board of the California Association of Secondary School Administrators and a member of the Technical Advisory Committee of the California State Scholarship Commission.

In 1955 Russell was named as the Walnut Creek "Man of the Year." He is active in the local Lions Club and various musical groups.

A graduate of Occidental College, he has pursued his graduate training in school administration at the University of California.

With his wife Helen and son, David, a student at Parkmead School, Russell lives at 1848 Newell Avenue, Walnut Creek.

Trustees have not yet named a new principal for Las Lomas High School.

## Cubs Visit Air Station

Cub Scouts of Pack 225 recently took a trip to Alameda Naval Air Station and visited an aircraft carrier. The boys traveled by bus and had dinner at the Station.

Boys of the pack earned the coveted blue ribbon proficiency award at the recent Scout-O-Rama at Acalanes High School for their demonstration of leather craft.

This pack is busy Saturday mornings practicing baseball and playing baseball with other packs. The team has not lost a game this season.

At the last pack meeting Chris Tarp received his Wolf badge and Dennis Galvan earned a Bear badge. The following boys received gold or silver arrows: Paul Lanzarotti, Norman Hart, Dennis Galvan, Steven Beecher, Ricky Maga, Rickey Talbot and Gary Menden Hall.

The Stanley school in Lafayette also reported a burglary Monday.

A LIBRARY door lock was jimmied to gain entrance. A vending machine was broken into, but other machines and objects of value were ignored.

The Ski Craft Company in Lafayette reported to deputies that a boat in for repairs had been tampered with and a chrome horn taken last week.

R. H. Wilcox of Walnut Creek, part owner of the company, said the theft was one of many that have occurred in the last few months at his store.

## Senior All-Night Party Scene Set, Plans Made

By SUSAN COX and CAROL PEDERSON

Now is the time for all good Miramonte Seniors to come to the aid of their party, the Senior All-Night Party, that is!

All party-goers will have to pay a cover charge of \$12.50 to get into Jack London Hall. Start collecting your funds and have them ready between May 1 and May 15. Also, start collecting your Blue Chip stamps so that you may complete one book in order that you may have an entry in the prize-winning contest! Real enthusiasts should be shown by the Seniors as a free ticket to the All-Night is at stake! Other gifts will also be offered. Make this an all-out effort on your part, as the evening you win may be your own!

**THROUGHOUT** the years of Miramonte's existence the matador (our mascot) has been hatless. Great revolutionary strides have been made so now that we have a hat!! Enrique, our last year's foreign exchange student from Spain, sent via air mail (not carrier pigeon) an original matador's hat. It was enthusiastically received by the student body in the assembly on Tuesday.

If you didn't see many of the Miramonte teens around on Saturday afternoon, chances are they were taking in the sun over at Glenna Clark's house. Everyone had a refreshing time, especially those who got thrown in! Weather permitting, Glen plans to have open house every other Saturday for those who don't have access to a pool or just want to congregate for a good time!

Tuesday, the freshmen and sophomore classes gave an assembly which revealed many of the lower classmen's talents! Dean French was moderator and full of corny jokes as befits any lower classman; Patty Sullivan entertained all with a tap dance routine and Steve Thaman (fingers) presented a few excerpts upon the piano.

# Our Youngsters Could Use Some Help—But How?

Needed: Another central agency. But not the kind of "governmental central agency" which is usually meant by such statements.

What we need, and need badly in Central Contra Costa County is a "central" agency which will help our young people find employment during the summer months.

Many steps have been taken in this direction in the past, but none has ever really worked out.

Perhaps, rather than central agency, we should use the term "clearing house" to explain our needs.

AS THE SITUATION now exists, there is little a young person can do when looking for a job. Although, in the past, the schools have tried to help, certainly what they have done has been inadequate. This is not necessarily their fault. They are not really equipped for the job.

For a short time an organization in Pleasant Hill tried to do something about the problem of summer employment, but this, too, faltered by the wayside.

So, let's ask a question: "Who will serve as a teen-age clearing house for the entire central area?"

There are, of course several possibilities. One answer might be for a large organization which has member groups in each community to sponsor such a move. Lions or Rotary Clubs would be ideally suited to this task because they have clubs in each community and could, with a little organization, coordinate the program to match up jobs with young-

sters.

HOW ABOUT SOME of our agencies, such as the Volunteer Bureau of Contra Costa County?

These are but two ideas, and you may have others. It is certainly a problem which needs a solution.

This year, there is improvement over former years—at least for the youngsters living within the Acalanes High School District.

Last summer the district ran the Career Exploration Course in Orinda on a pilot program basis. The project was such a success that this year, for the first time, it is being expanded to cover the entire district.

In many cases, we feel, this is second best to a paying job, as far as the youngsters are concerned. They learn, but they don't earn through this program.

WE HAVE STATED this before in editorials in The Sun. There is a tremendous need for student employment. In the past, many youngsters, who had the initiative, have taken advantage of The Sun's free classified ad to teenagers offer and have profited by it.

But this again is not the entire answer. There are certainly many things youngsters can do in an area which is as diversified as ours. There are many merchants and individuals who can use their services. The only problem, obviously, is getting the supply and the demand together.

To do this, we need a central clearing agency for young people.

Any answers?

## Music Hath Charms...

In these days of science and mathematics and the cold war, sometimes it is easy to lose sight of the cultural values which are our heritage as members of the Western civilization.

Unfortunately, many times, our youngsters grow up without ever having had an opportunity to explore for themselves the wonderful world of music, literature and the fine arts.

A TREMENDOUS opportunity is being offered to them—and to you, too, tomorrow night at Miramonte High School in Orinda at 8 p.m. when the California Youth Symphony Orchestra presents a concert under the sponsorship of the Lafayette Lions Club.

This is an opportunity for you to take your youngster(s) to a live symphony performed by accomplished musicians in their own age group. The members of the symphony vary in age from 11 to 18,

and they are not amateurs by any means. In fact, they put many of our professional symphony orchestras to shame.

You will find, in the front section of this issue of The Sun, a coupon which entitles you to bring your children free of charge if you purchase a ticket yourself.

ACTUALLY, THE net proceeds of the concert are going to Lions charity works, but this service club, and The Sun, felt it so important that youngsters have the opportunity to hear such fine symphonic productions that this special offer is being made.

But no matter whether or not you wish to take advantage of the coupon, you should take advantage of the concert. The Lions are to be commended for bringing this excellent program (the symphony's first appearance in the East Bay) and it behooves all of us to attend.

It is too good an opportunity to miss.

## There's a Sucker Born...

Wasn't it P. T. Barnum who said, "There's a sucker born every minute?"

Well, you might not believe it, but some of our intelligent residents right here are proving that he was a wise man.

The Contra Costa County District Attorney's Office recently sent out a notice urging local residents to beware of the salesman "referred" by a friend, who offers a commodity at a ridiculous price.

THIS IS NOT the place to go into the details... they were carried in The Sun last week. But this is the place to point out a moral.

First, if any offer is patently ridiculous,

lous, don't get greedy. Beware of a trap.

Secondly, and most important, know with whom you are dealing. Remember, your local merchant, who offers you a commodity or a service, will still be around when you want to complain. But chances are you won't have to, because his reputation is at stake, and he has to make his home in the community. (Incidentally, he pays taxes, too.)

Although in the case of the itinerant, the original price may seem to be a real "bargain," watch out... it may cost you much, much more in the long run.

Let's not prove Barnum correct in this community!

## The Staff Corner Hectic, Man, Real Hectic

By DICK OSBORN

Boy, it's a far cry from home, let me tell you!

Had the pleasure of a brief jaunt to Sparks, Nevada, and it was very interesting.

Sparks, in case you aren't up on the details, is a nice little town which boasts of a noted suburb called Reno. Also, the only gaming establishment (complete, not just slot machines,) is a little place called The Nugget... Dick Graves' Nugget to be exact, although it is owned by a personable chap called John Ascuaga.

But that is beside the point. Did you ever get the feeling that life is pretty hectic? Find yourself kicking the dog and snapping at the Better Half?

Ever get worried because sometimes it looks like the payments are more than the income?

Find yourself worrying about your cholesterol count and your health in general?

Well, neighbor, even with all these worries your life is probably a lot more placid than that lived in that mecca of the west, Reno, Sparks and environs.

Everybody who works for The Nugget, from the owner on down, wears little pocket radios—sort of Dick Tracy affairs, except you can't talk back—so that the all-seeing eye can summon them to points of trouble or need.

And how would you like to live with a built in command post strapped to you all day and most of the night?

And, as you know, running four restaurants and a full-fledged gambling casino is not just an eight-hour-a-day job. Ask Johnny Ascuaga.

But there's something else, too. You look around you at the people dropping their dimes and nickles (and dollars) into the ravenous slot machines, and they in-

variably have a sort of glazed look in their eyes. Same goes for the crap shooters and the blackjack players.

I tried my hand at blackjack. After all, I couldn't go all the way to Nevada and just SIT there!

Well, I wagered a dollar or two, but the lady sitting at the end of my table had nearly \$1000 worth of chips stacked in front of her. She was betting them 100 bucks at the throw.

And you know, she didn't look very happy. I don't know whether she was winning or losing, because I'm no financial mathematician, and I can't count that high.

But she evidently (from the remarks between herself and the dealer) makes a regular practice of camping at the blackjack tables.

I couldn't help but compare her with some of the people you meet right here in our own community. Our people (women about her age) can usually be found in the nearest market, with a couple of kids in tow, doing the family shopping for the week. Or out on the patio watching their husband struggle with the barbecue on a Saturday evening.

Usually they are smiling, relatively happy, and with a future in mind.

Oh yes, I can't say that I recommend the bus trip, either. Travelling from Reno to Oakland by Greyhound is not what I would call a real pleasure, but it is economical. (No, I didn't lose all my money, but I was given the ticket, so I took it.)

Reminds me of the old joke. "Heard about the fellow who went to Reno in a \$6000 Cadillac and came back in a \$50,000 bus?"

See what I mean? That's what a weekend in Reno will do for you.

### It Takes The Romance Right Out of The Moon

By MARIE MONAHAN

THEY MAY have put a man into space but I, for one, hope they never put one on the Moon!

It's not that I'm against scientific progress but simply that I'm FOR MOONS & somebody's got to protect Romance...

THERE'S A vast difference between the Man In the Moon & a man ON the moon... & there isn't anything romantic about a moon with a man ON it!

Suppose they discover it's not really made of Green Cheese. Heavens To Betsy! That's like learning there's no Santa Claus... or no fairies in the bottom of one's garden. A veritable BLOW!

Tell us, dear scientists, WHAT will replace moon-gazing in the Lovers Department?

WHO, THEN, can sit & spoon (well, that's what our generation called it!) & whisper sweet nothings when you know there's a man in a big inflated balloon suit bouncing around the land of the lunar. SCIENTISTS predict someday a city will be built on the moon. Then what happens to the shadows... & the face on the moon? It's likely to put an end to Romance. I mean goor old-fashioned Hearts & Flowers stuff where you talk to the moon, croon to the moon, spoon to the moon... & what about all the songs written about a June Moon, Harvest Moon, etc....

SONG WRITERS won't be able to extol the virtues of the moon when it's no longer a thing of mystery.

They'd have to dish out a few facts—like "Oh, it's only a Russian Moon, but Our Boy will be there in June"... Or—"Can This Be Moon Life, Nothing But Moon Life?"

Frankly, it leaves me as cold as the caverns that are supposed to exist on that heavenly body we are trying so hard to reach...

I much prefer the songs the way they are now—like "a trip to the moon on gossamer wings."

But if Man conquers Moon, we'll know darn well the gossamer wings are OUT & the space suit is IN... & there is certainly nothing about a space suit that denotes romance now, is there?

I think we're treading dangerous territory, undermining Romance...

MOONS ARE meant to be looked at over a shoulder, or from someone else's tweedy one... Moons are meant to light garden parties, shine down on young lovers, old ones, too... meant to swathe the world in moonlight, to have songs written about, to be there like a giant lantern for lonely souls as well as lovers, for kids camped out to ponder with all of Infinity.

No, I don't think we should fool around Up There. Even if Henry K. comes up w/a MOON Village—or Hilton w/a well-appointed Heavenly-Hilton, there'll be no trips to the moon for me.

I LIKE IT HERE & here I'll stay with my feet on the ground, my heart on my sleeve, my head in the clouds... & the moon a thing unreachable!

## Letters to The Editor

ATHLETICS Dear Editor:

It is my belief that perhaps you, Mr. Mattson and other parties concerned with the Foothill League Athletic policies have overlooked one quite obvious consideration. In this day of the specialist; athletic directors, school principals, newspaper editors and public relations personnel have attained their respective positions because they have found an occupational field in which they excel.

If in this case an excellent athletic director like Mr. Mattson is requested to write his opinions on the "curtailment of the athletic program in the Foothill League" for publication in a paper such as The Sun, the results could possibly be quite embarrassing to all concerned.

Because Mr. Mattson's primary profession is not editorial writing, I believe his column in the March 31 edition of The Sun could have had this effect.

Could it be that the principals of the schools in the Foothill League wished to spare themselves and their respected associates in the athletic departments from just such embarrassment? I would venture a guess that this was their reason behind this decision:

BLISS H. GREEN

(Editor's Note: Mr. Green is a "not so old" grad of Acalanes High School — 1949 according to his own statement. As for professional abilities, it is interesting to point out that Mr. Mattson has been writing — professionally, we think, for The Sun for over 10 years. We feel that this qualifies him to be able to write, under his own name, on subjects which concern his primary vocation.)

INDIANS Dear Editor:

A Basque shepherdder knows his sheep. He knows that all the organizations and individuals who signed the "open housing covenant" did not do it for their love of the American Negro, but simply because they are "conformists."

Now, why so much consideration and propaganda in favor of the American Negro and nothing, absolutely nothing, for the imprisoned American Indian. I'm telling you why!

Because the European-American colonists have already stolen all the lands once owned by the American Indians. However, there still is the land and rich minerals to be taken away from the primitive African Negroes.

If the American people do not see it that way, the world people do see it that way. They are not conformists.

EUSKULDUN BAT.

## Taxpayers Object to New Assembly Bill

The County Taxpayers Association has objected to the proposed Assembly Bill 2405, which members feel would allow the County Flood Control and Water Conservation District to levy more than the 20-cent tax rate limit.

Harry Morrison, Jr., Association executive director, wrote a letter to Assemblyman Jerome Waldie.

He referred to the bill's limit of 20-cents — except a special tax may be levied in a subzone, zone or participating zone as provided in Section 12.3 of this act to meet contractual obligations with another governmental body.

Morrison said the bill would "render meaningless" the present terms of the flood control act which require the 20 cent limit except where bond issues are approved by the voters.

## Under The Sun Unhappy About Taxes? Willing to Do More?

By HERMAN SILVERMAN

Are your taxes too high?

"Yes," you and I answer without hesitation.

Can taxes be reduced—or at least held in line?

Yes, we think so. For years The Sun has preached economy and efficiency in government. (The Sun has actually done more than write news stories and editorials. The Sun has encouraged and participated in studies, has discussed such issues with public officials, has presented material to past county grand juries on inefficiency or dishonesty in local government.)

### Look what's happening today

Incidentally, take a look at the bills now being debated in the legislative halls of Sacramento and Washington, D.C. Far reaching social welfare and other costly bills are being discussed—and they will cost YOU money.

Read the papers. Let your state and federal legislators know if you are willing to pay more taxes for more unemployment insurance, increased welfare aid, health insurance, etc.

But let's return to my original thesis.

We scream about taxes. But are we willing to do without something so taxes need not be raised? Or do we want additional benefits and let the next guy give up some governmental services?

### A message from Jerry

I recently received this note and enclosure from our assemblyman, Jerome Waldie: "I came across the attached item relative to excessive governmental expenditures and thought that there was a great deal of truth contained in the admittedly exaggerated illustration." Here's Jerry's "illustration," which was from a speech by Congressman Frank Bow:

A young man lived with his parents in a public housing development. He attended public school, rode the free school bus and participated in the free lunch program. He entered the Army, then upon discharge retained his national service insurance. He then enrolled in the state university, working part time in the state capitol to supplement his GI education check.

Upon graduation, he married a public health nurse and bought a farm with an FHA loan, and then obtained an RFC loan to go into business. A baby was born in the county hospital. He bought a ranch with the aid of the veterans' land program and obtained emergency feed from the government.

### More to come?

Later he put part of his land in soil bank and the payments soon paid out his farm and ranch. His father and mother lived very comfortably on the ranch on their social security and old-age assistance checks. REA lines supplied electricity. The government helped clear his land.

The county agent showed him how to terrace it; then the government built him a fishpond and stocked it with many fish. The government guaranteed him a sale for his farm products at highest prices.

Books from the public library were delivered to his door. He banked money with an insured government agency. His children grew up, entered public schools, ate free lunches, rode free school buses, played in the public parks, swam in public pools, and joined the FFA. He owned an automobile so he favored the federal highway program.

He signed a petition seeking federal assistance in developing an industrial project to help the economy of his area. He was a leader in obtaining the new post office and federal building and went to Washington with a group to ask the government to build a great dam costing millions so that the area could get "cheap electricity."

### Lower his income tax?

He petitioned the government to give the local air base to the county. He was also a leader in the movement to get his specific type of farming special tax write-offs and exemptions. Of course, he belonged to several farmers' organizations, but denied that they were pressure groups.

Then, one day, he wrote to his Congressman: "I wish to protest these excessive governmental expenditures and attendant high taxes. I believe in rugged individualism. I think people should stand on their own two feet without expecting handouts."

"I am opposed to all socialistic trends and I demand a return to the principles of our Constitution and the policies of State Rights."

Know him?

### Oh Man!

Now is the time when parents should stop, look and listen.

Don't laugh at Bill during these days. His feelings can be deeply wounded. Help Bill grow into the man you want him to become by giving him strong, wise, and kind guidance.

Stop treating him like a child. Look for the quick changes of mood, the intense, but brief interest in everything. Listen sympathetically during those times when he wants to confide in you.

## Nuptial Rites Wed Downs to Miss Kendall

The benedict's namesake and a long-time friend of his father's officiated at the recent wedding that united two local families when Michael Vincent Downs of Orinda bestowed his name on Elizabeth Ann Kendall of Lafayette.

Coming up from Santa Clara University to officiate at the Santa Maria Church ceremony held 7 o'clock April 7 was Reverend Vincent McGinty, the best friend of the groom's father, Joseph Downs of Orinda.

For her walk down the aisle to an altar banked with blue, lavender and white delphinium, iris and stock, the bride chose a bouffant gown with a short train. Her headdress and veil were in the Mary Queen of Scots style and a prayerbook belonging to her grandmother completed her bridal costume. She carried a spray of stephanotis.

The bride is the daughter of Mr. and Mrs. Edward Kendall of Heather Lane, Lafayette. For her daughter's wedding, Mrs. Kendall wore a raw silk suit in white, green and blue flecked tweed to which she pinned a corsage of white orchids.

The groom's mother chose a blue brocade suit and veil for the nuptials and a corsage of orchids.

The wedding entourage consisted of Biji Freeman, maid of honor who is a Kappa Kappa Gamma sorority sister of the bride; the sisters of the bride, Gay and Bobby Jean Kendall; Sheila Pollard and Janet Campbell, also Kappa Kappa Gammas at the University of Washington where the bride has been a student the past year.

Junior bridesmaids were Chrissie Kendall and Kathy Howard, who are cousins of the bride as are the flower girls who were Bonnie Langan and Vicky Kendall. They carried tiny nosegay bouquets.

Thomas Beatty of Lafayette was best man and ushers were James Gilwee, Oliver Fisk, James Neylan, Kevin Merrick, Edward Kendall, brother of the bride, Wallace Marsh and Shailer Pickton. The latter's recent bride, the former Alice Monosmith, took charge of signatures in the guest book.

Among the 500 guests at the church wedding were the benedict's grandmothers, Mrs. Hazel Boydston of San Francisco, Mrs. Joseph Downs Sr., of Palm Springs and his aunt, Mrs. George Burns of Beverly Hills and her daughter, Mrs. Rod D'Amato of Beverly Hills. Dr. C. Cook, grandfather of the bride, also attended.

An overflow of guests thronged to the Orinda Country Club following the marriage to felicitate the pair who received in front of the library fireplace decorated in the same blue and white color scheme. From the club's balcony, the bride threw her bridal bouquet which was caught by Linda Bergen.

Following a honeymoon in the Pebble Beach house of the R. F. Hopkines of Orinda, the young couple will be "at home" in a Lafayette apartment.

The new Mrs. Downs will resume her studies in nursing at the University of California. The groom, who attended St. Mary's College, is employed by Dow Chemical Corporation.

The board of supervisors order announcing the sale states that the 3,210 square foot property containing the 1,600 square foot building "will be sold as is, free and clear of all encumbrances, but subject to any restrictions, reservations, zoning, or setback lines now existing."

Full details concerning filing of bids are contained in the board order dated February 14, 1961. The building, constructed in 1917 with Carnegie funds on property given by R. N. Burgess, served as the Walnut Creek Carnegie building and property branch of the Contra Costa Library system until it was moved to the new 9,240 square foot library building on North Broadway, dedicated March 19. Veterans of World War I of the bill which was introduced recently in the House of Representatives. The bill would grant a 30 per

cent increase in pensions to those who qualify.

It is a separate bill devoted exclusively to World War I veterans. Veterans are requested to send name, address and serial number to Veterans of World War I, 201

So. Mission Drive, San Gabriel, California.

With the ever increasing cost of the cold war and increasing Social Security benefits veteran groups fear that many of the World War I veterans who have

never had the opportunity to build up retirement incomes may be in for a rough time during their declining years unless Congress separates them from the younger veterans.

Rhododendrons, Gebera Bloom During April

Rhododendrons are in bloom this month and there's no better time to pick out the one you want.

Clumps of gerbera (transvaal daisy) can be bought in bloom. Plant them in raised beds to insure perfect drainage and don't bury the crown.

Sow a lawn before the month is out. It's best to get one going before the hot weather sets in.

Work soil conditions and humus into the ground while it's still moist enough from the winter rains to be workable.

Much around camellias with a two or three-inch layer of peat moss or leaf mold. This is especially helpful in warmer areas since it keeps the ground both cool and moist.

Your Garden Pencil, Notebook Are Also Gardener's Tools

It's been said that a pencil and notebook are the gardener's most important tools. And while we wouldn't like to rely on them exclusively, we'll have to admit that they are indispensable to getting things done when they should be done.

Trouble is, most of us are too lazy to keep a garden diary. We rely on our memories and as a result our timing is often wrong. If you have this trouble, the following few notes from the California Association of Nurserymen might come in handy.

In April, as you might have forgotten, some extra care in the rose garden will do wonders later on. The primary aim is to produce a bushel of new growth and to keep producing it through the first flush of bloom and on into summer. Scratch a handful or two of commercial rose fertilizer into the soil around each bush and soak it in thoroughly. Water is

AND DID YOU remember that April is a favorite month for bugs? They return each year as faithfully as do the swallows to Capistrano. A little preventive spraying along the way could have the critters out and a good spraying now (under side of the leaves, too, please) will discourage further transgressions. Let your local C.A.N. nurseryman help you with a future spray schedule.

In April, too, we want to remember those summer bulbs (tigris, dahlias, cannas), summer bedding plants (nurserymen abound with them), and summer vegetable gardens. On the latter score, many vegetables can be set out as transplants from nursery flats as well as starting them from seed.

IT IS ALSO the month to get an early start on the fall garden by setting out chrysanthemums. The earlier you transfer the new plants from the nursery to your garden, the more actively they will grow. Cut the young plants back at planting time and keep them watered so the stems will not toughen up and slow down.

And one last note: Make some notes to yourself for next year. Check the neighbor's garden to see what spring color he has that you'd like to remember to plant. All you have to do after that is to remember to read the notes at the right time.

# "EBMUD GIVES COFFEE A BREAK!"

Moraga's Jim McCabe is a professional coffee taster. According to Jim, EBMUD water is a coffee lover's best friend.

"Good water makes good coffee," Jim says, "and EBMUD water is outstanding. It's extremely pure, and there's almost no mineral content. That's why coffee tastes noticeably better here than in many other parts of the country."

Thanks, Jim. Incidentally, the same holds true for tea, soup, and frozen juices. Have you noticed? Anything you mix with pure, soft EBMUD mountain water always tastes its very best.

United Crusade County Chairman Is Appointed

Gerald C. Stanley, utility official and civic leader, has been appointed county campaign chairman for the 1961 United Crusade annual drive it was announced today by Dana Murdock, president of the Contra Costa United Fund, Inc.

Stanley is Pacific Gas and Electric district manager of the bay district, president of the Council of Richmond industries; chairman, Educational Committee, Richmond Chamber of Commerce; board member of Richmond Rotary, Contra Costa County Development Association, West Contra Costa Community Chest, and County Taxpayers Association. He is a member of Mayor's Committee for Beautification of Richmond, member of board of governors of the United Bay Area Crusade, executive committee member of Contra Costa United Crusade, and campaign chairman for West Contra Costa 1959 and 1960.

He said, "In my opinion this is the most important job that a group of community-minded citizens can undertake.

"While the federated plan for raising funds for our county member agencies is widely accepted, still it presents a real challenge.

"In order to give our agencies sufficient funds to maintain a level of service needed to insure a healthier community we would have to greatly increase the goals of our annual drive."

## Acalanes-Alhambra Game Tops Baseball Schedule

The Acalanes Dons and the Alhambra Bulldogs meet in an all important baseball game Thursday that could decide the final standings in the Foothill League.

The two clubs wound up at the end of the first round of play with identical 4-1 records. The Bulldogs lost their opener to Las Lomas 4-2 but handed Acalanes its only loss, 3-2.

**PIEDMONT** and San Ramon appear to be out of the race with one win as against four losses, but could possibly play an important part in the final result.

Piedmont also committed six errors.

Piedmont's lone safety was a single in the fourth by Craig Coakley.

Jim Murphy led the Las Lomas attack as he collected three hits while driving in four runs.

## Rams Defeat Falcons, 3-0

Southpaw Bob Juarez of Pleasant Hill pitched his team to a 3-0 victory over College Park last Thursday. Juarez struck out nine and allowed only three hits.

Mickey Sytkowski of College Park also struck out nine while giving up only three singles.

The Rams scored again in the third on a walk, sacrifice and a dropped fly ball.

The winners' final score came in the fourth when they collected their final two hits.

Tuesday Pleasant Hill plays at Mt. Diablo and Thursday they travel to Clayton Valley for DVAL league games.

## Farmer Paces Track Wins

Dixon Farmer of Orinda paced the Occidental Tigers to triangular and dual meet wins over the University of California and Fresno State Saturday at Edwards Stadium.

The former Miramonte High School star raced to three individual victories.

Oxy defeated Cal 88 1/3-42 2/3 and Fresno, 99-31 in the dual meet scoring. In the triangular scoring it was Oxy 88 1/5, Fresno 25 2/5.

Farmer took firsts in the 440, broad jump, low hurdles and ran a leg on the winning relay team.

He captured the broad jump with a leap of 22-10, won the 440 in 47.4 and ran the hurdles in 23.5.

His time on the second leg of the relay team was 47.8.

Farmer's teammate, Steve Haas, was the only other man to pick up more than one first place finish. Haas won the 100-yard dash and the 220.

Farmer, apparently recovered from a leg injury which bothered him a good part of last season, has become Oxy's workhorse this season.

His best previous effort on one day was against San Jose and Stanford when he won the low hurdles, was second in the 440, tied for third in the broad jump and ran a leg on the winning relay team.

A fashion show will be featured during the dinner hour.

The football club is headed by president Joe Dame and coach Pete Villa.

Four new teams have entered the league for the coming season including one from Pleasant Hill.

## Bad Weather for Fishing; Rifle Safety Class Open

By LARRY JACKSON

Guess we had better burn our ol' Almanac. The past seven days, according to the ol' oracle, were to be the best fishing of the month. With all the reports in for the week, it was the worst for the past several weeks. Spotty fishing has shown up at some points, but on the whole, fishing was nothing to brag about.

The boating fraternity at McAvoy's were kept dockside because of the gusty winds. Between small gales some of the boaters did make trips outside, but showed nothing of interest. Only two limits were reported for the week, one by Fred Katarzy with stripers running 4-8 and 20 pounds and another by Al Sims with fish in the 4-5 and 8 pound class. Fred took his fish off State Point using the ever popular sardine, while Al with claim bait "ganged" up on his limit off Snag Island. It all goes to show ya' that the striper will hit anything when hungry. Next we know the boys will be using a piece of broom handle and a chicken feather.

**SHORE** fishermen have been loading up on the "cats" with a few smaller keeper bass in the sacks. Dowrelios were hampered during most of the week by the winds, keeping the boats at the moorings and the crowds away. Whenever they got a break in the weather the boats had good to fair luck, but the fish running in the smaller brackets. We had several reports from some of the old-timers who had experienced good luck just off the Carquinez bridge using the old-time pork rind for bait. This has long been the "killer" for the large mouth, but seldom used on the striper.

The Eff N' Gee boys on the Nautilus report large schools of sardines in this area and as far upstream as the Martinez R.R. bridge. With this bait in the area some boaters have tried trolling when the wind permitted and had the best luck. All report the top of the tide in the early morning or evening as the best for good results. Results, however, have only ranged from fair to good, nothing really "hot" nor big fish.

At White's Fishing Resort, the weather kept the anglers away and the fish were only fairly active all during the week. Fish were taken all during the week, but not too many and all in the lower keeper to 4-5 pounds in the size area.

**LARGEST FISH** of the week was taken by one of our distaff anglers, Mildred Thomas of Walnut Creek, who hauled in a nice 10 pounder off the wharf. The bait the lowly bullhead. Reports show an influx of shrimp in this area, but to date none of the fish have shown this bait when they were cleaned. The gulls have been working the schools of sardines but the boaters following failed to show good results.

We watched a boat fisherman Monday morning and saw the joker "heave-ho" on the first nibble and short run to come up with nothing—not even bait. When are these novices going to learn to use patience when fishing for these "touchy" fish. Take the old timers' advice, let them run before you try to set the hook. The striper likes to "mouth" the bait for a spell before he takes off. When he does make his run, that is the time to "hit" him.

**WALNUT CREEK SPORTSMEN'S CLUB** reported a fine meeting on the 11th with all projects rolling along in high gear. The work on the new shooting range at Port Chicago, in conjunction with the United Sportsmen Club of C. C. County, is progressing in fine style and the class of teenage shooters is meeting with high praise and much enthusiasm. Classes are still going on with increased attendance at each meeting. If that teenager of yours, Mr. Sportsman, wants to learn his rifle handling and shooting, give a call to Jim Monk at MU 5-0933 and make an appointment to attend one of the meetings. Youngsters taking this course in gun safety will be awarded a certificate and be able to take to the fields when the hunting season rolls around.

Had a word from Juanita Howard of Lafayette, Waterrock Ranch Springer Spaniel breeder, who attended the Springer National Specialty Show at Alexandria, Va., over the past weekend. Her dogs didn't carry off any of the "top" honors at the show, which was won by an eastern dog for the year. Haven't heard any word from Concord's Mary Jo Hosteny, who also attended the Springer National as well as the Chicago International. Too bad, better luck next time, gals.

Congrats to the Danville Rod and Gun Club for their fine and interesting exhibition of guns—antique and otherwise—over the weekend at Danville. 'Twas for a worthy cause, too, and well worth seeing. If you missed it, don't pass up the next one.

Shell Development Company has appointed two directors from this area to the Emeryville Research Center, according to Dr. T. W. Evans, vice resident and general manager.

The directors from this area, who will be responsible to the manager of the chemical research and development, are:

Dr. C. R. Nelson of Orinda, director of industrial chemicals research and development. Until this appointment he was head of the chemical process engineering department.

And R. W. Martin of Walnut Creek, director of plastics and resins research and development. His most recent assignment was as head of the thermoplastics department.

## Duffy Speaks For Brokers' Nat'l Institute

Tom Duffy, member of the Contra Costa Real Estate board, has been appointed local representative of the National Institute of Real Estate Brokers, the headquarters office in Chicago, Illinois, announced.

The Institute—composed of 15,000 realtors—is the largest affiliate of the National Association of Real Estate Boards and has as its main objective the education of its members to serve the public.

One of Duffy's duties will be to stimulate panel discussions on brokerage problems at real estate board meetings and during state conventions.

A native of San Francisco, Duffy attended St. Mary's College and was formerly chief instructor of real estate at Heald College in San Francisco.

# Let's Cooperate

"Cooperation to avoid duplication" is the objective of the Contra Costa County School Department in its relations with those of other bay area counties, according to Superintendent Floyd Marchus.

He said, "By acting together the county departments can pool material and human resources and perform those significant functions that can't be done effectively by one county superintendent but can by several."

An example of the latter, he said, is the educational television program of the nine bay area counties, coordinated by a director whom they jointly support.

COUNTY superintendents of these nine bay area counties—Contra Costa, Alameda, San Francisco, Santa Clara, San Mateo, Solano, Sonoma, Napa and Marin—meet regularly to maintain communication and thresh out mutual problems.

Pooling the materials of instruction, such as guides for teachers, units of study, and similar productions, is one of their chief interests. Area-wide cooperation also makes available to a wider field the particular talent or specialty of a given staff member, Marchus said.

In the future, he thinks, it's possible that book adoption may be jointly undertaken. This would mean one team of teachers and curriculum specialists instead of nine would review and recommend supplementary textbooks—supplementary, that is, to the mandatory state texts.

Contra Costa County superintendent's office maintain cooperative arrangements with Alameda County.

A HEALTH guide is currently being developed for use in every grade from kindergarten through high school.

Alameda County superintendent's office is providing the consultancy services of Dr. Oliver E. Byrd, executive head of the Department of Public Health at Stanford University, and Contra Costa County is making available the services of Health Consultant Byron (Barney) Cross.

Alameda County is purchasing 500 copies of social studies units for grades 1-3, part of a series produced by Contra Costa County. The units, incidentally, are similarly used elsewhere in California.

Contra Costa and Alameda County superintendents, plus Sonoma, are in the initial stages of a study of the problems of school psychologists. It is proposed that the three departments share the expenses of employing visiting experts in guidance fields.

Said Marchus: "The bay area is fast becoming one community, and its schools have common needs. Through our concentrated efforts we hope to meet these needs."

## Stetzer Joins 'Security Club'

LaMont D. Stetzer Jr. of Walnut Creek has qualified as a member of the Security Club, Security Life and Accident Company, Denver.

This club is open to only full-time Security of Denver representatives and is one of the top clubs in Security Life and Accident Company.

Stetzer, who joined Security Life in 1959, is associated with the Walter Bells Agency in Oakland with offices at 268 Grand Avenue.

CATHOLIC GUILD fashion show "Spring into Summer", held at the Claremont Hotel Wednesday included, among others, these three models, left to right, the Mesdames Richard Talbot, Lloyd King and Bruce Lane. The show benefited St. Mary's Parish School fund.

## Local Seniors Compete In Achievement Test

Nine seniors from four high schools in Central Contra Costa County participated in the Bank of America Achievement Award zone competition at Berkeley Tuesday.

They competed for first-place awards of \$150 and the right to enter the bay area finals where top winners receive \$1,000 in cash.

Winners of the zone event will be selected by a panel of civic and business leaders from various communities within the zone.

Winners will be named from among students majoring in fine arts, liberal arts, science and mathematics, and vocational arts.

First-place winners in each study category will be assured minimum awards of \$150 at the area finals, and second and third place winners at the zone level will receive \$50 and \$25.

The local participants are: Janice Varner, Las Lomas, and Natalie Hartanov, Miramonte, vocational arts; Marsha Bratten, Acalanes, and Roger Hendrix, Pleasant Hill, science and mathematics.

Don Jensen, Las Lomas, science and mathematics; Joan Whitehead, Acalanes, fine arts; Phillip Marsh, Las Lomas, and Francis Malley, Acalanes, liberal arts; and Jule Wellband, Pleasant Hill, liberal arts.

## 'Undercover' Secret Will Be Revealed

Coiffure Mr. Connelle will introduce his "Undercover cut and curl" for 10 days starting next Monday at Capwell's Walnut Creek store.

"Until now," he said, "we've always had to completely restyle a woman's hair if she wanted to change her coiffure."

"But not any more. With this revolutionary new concept, we can rearrange her hair any number of ways, all with the same original cut."

"We can make it look long or make it look short. It's the hair underneath that's the secret. That is why we call it the undercover technique," he said.

### 6th Communism Lecture Is Thursday

An immediate problem confronting the United States—the penetration and expansion of Communism in the Central and South Americas—will be detailed at the sixth of a series of lectures on Communism to be given at Diablo Valley College in Concord Thursday.

The speaker, Dr. Joost Sluis of San Francisco, is Northern California director of the Christian Anti-Communism Crusade.

turned from a tour of the Caribbean where he visited such places as Jamaica and Trinidad. The Russian-Chinese power bloc of 900 million Asiatic people will likely remain in existence for at least the next 10 to 20 years,

and when it does break up it will be along ideological lines, not because of any rift caused by the Western democracies. Dr. Denzel Carr of the University of California, addressing audiences in the Contra Costa Junior

College District's current lecture series on Communism, said the two huge countries are now welded together "because they need each other."

enough to buy it off without selling our own soul or selling out a prime partner." Meanwhile, the two continue to play the game of "blow hot—blow cold," skipping from crises to

crises to keep the Western world off balance. Russia, relatively speaking, is the conservative one.

# Music, Drama, Awards at DVC

The Annual Norseman Awards casting and beginning of rehearsals next week highlight several activities and events taking place at Diablo Valley College this month.

The theme for this year's production will be "Where Do We Go From Here." It will be comparable to President Kennedy's New Frontier, according to Roger Elliott, director of the show.

**PRESENTED IN** four acts intermingled with the Norseman Awards, given for high scholastic ability, the cast consists of about 25 students.

The 1961 Norseman production staff includes: Roger Elliott, director, Pleasant Hill; Carl Hald, producer, Lafayette; Carole Moldenhauer, Antioch; Kent Barber, publicity, Concord; Sally Hunter, budget and house manager, Pleasant Hill.

**NICK McKIBBEN**, budget advisor, Pleasant Hill; Paula McGuire, choreographer, Concord; Jeff Foord, musical director and arrangement, Berkeley; Bob Jones, props, Orinda, and Carroll Briggs, stage manager, Walnut Creek.

Also announced this week was Diablo Valley College's "Viking Theater" staging of Sean O'Casey's, "I Knock at the Door," April 28, 29, and May 4, 5 and 6.

**ALTHOUGH IT** doesn't require elaborate staging, O'Casey's two act play entails the changing of the seating arrangement and the construction of a new stage.

"I Knock at the Door" is unique in that, with the exception of a few hand props and six stools, all the action takes place without the aid of stage properties.

The "Viking Theater" was converted for the use of the college drama department last summer when the Life Science lecture and laboratory classes moved into the college's new science center.

After the building was completely renovated, Harvey Berman, instructor and director of "I Knock at the Door," developed a theater, well suited for O'Casey's play.

**WITH THE** addition of a new sound and lighting stage, the "Viking Theater" is adequately prepared and will add the needed technical facilities necessary for the shows production crew.

Admission for each performance is \$1 for the general public.

The cast for the play includes: Harvey Berman, director; Michael Kimball, narrator; William

Payne, chair 2; Ron Brown, chair 3; Diane Himes, chair 4; Paul Bengston, chair 5; and Maryly Blew, chair 6.

**THE WORLD** University Service semi-formal dance for tomorrow, 9 p.m. to 1 a.m., was also announced.

Admission is \$1.25. Bill Gallagos and his orchestra will provide dance music.

Five continuous planetarium shows will also provide one of the highlights of this year's open house program scheduled at Diablo Valley College for Sunday from 1 to 4 p.m.

**THE PROGRAMS**, entitled "Starlighting the Planetarium," are designed to provide a general overview of the teaching facilities now available in this scientific

area on the Diablo Valley College campus.

The balance of the new science

center, including the Science Museum, will also be open to the public.

The introductory lectures in the applications of the planetarium to teaching will be narrated by Robert Duke, physics and astronomy instructor at Diablo Valley College, and Stuart Inglis, who is employed in a similar capacity at Coitira Costa College.

## Double Session— Ups and Downs

Double session in Contra Costa County schools has extended upward one grade but has declined somewhat in total number of children involved, County Superintendent Floyd Marchus reports.

A study by his office shows the use of double session for some third grade children in Mt. Diablo and Pittsburg Unified Districts and Moraga—for a total of 515.

At the height of overcrowding during and after World II, however, double session extended into the sixth grade, he commented.

On double session now are 1767 children in the three districts enumerated, plus Richmond and Walnut Creek.

This figure compares with 1816 at the same time last year and 1753 two years ago in first and second grades only—and with the high of 14,685 in 1949.

Mt. Diablo Unified District accounts for nearly half the total on double session presently, at 820, followed by Pittsburg, 398; Walnut Creek, 289; Moraga, 158; and Richmond, 102.

Moraga, situated in the heart of the Utah Construction Company's residential development, has the highest rate of double session, with 40 per cent of its 399 children attending school in shifts.

## Tahiti Has Real Appeal for Women As Well as Men

Most people think of Tahiti as a man's paradise, with beautiful girls, real tropical weather and beautiful settings.

This, of course, is true, but Tahiti has special appeal for the women, too.

For one thing, there are, reportedly, 200 more men there than women—a substantial majority for such a small place. You meet Frenchmen who have settled in Papeete, as restaurant proprietors, or to help supervise the building of the island's first airport; Americans considering investment opportunities who've sailed in on their own yachts; carefree Australians, Mexicans, airline crews.

ONE THING of interest to the women, too, is that they can have clothes handmade on the spot by skilled Chinese seamstresses (special quick work is done for the tourist).

You don't get the usual American fare of hotdogs or hamburgers, either. Rather, wines from France and Algeria; planters' punches made of Martinique rum; tasty island-grown beef; marvelous local fruits like the star apple; creamy butter from New Zealand... the variety is almost endless.

TAHITI is no longer inaccessible, either. South Pacific Airlines can whisk you there in just a few hours. South Pacific, incidentally, is owned by the Dollar Lines, who have a reputation for luxurious travel in the South Pacific. And Stanley Dollar is a local resident!

Perhaps you took French back in your high school days. No matter if you've forgotten it. You almost have to practice it in Tahiti, but nobody seems to care how you pronounce it. Tahitians can't roll their r's, either.

## The Islands Really Offer Something for Everybody

How about a pleasant trip to Hawaii?

Whether you fly or go by luxury liner, you have a lot to look forward to when you get there.

Hawaii is many places, as tourists flocking there by the thousands are beginning to discover.

Kalakaua Avenue at Waikiki, America's newest main street, 2220 miles off the California coast, is an elegant boulevard, gleaming with luxury hotels, smart shops and gourmet restaurants.

AT WAIKIKI BEACH, by day, you can take ukelele lessons, learn how to weave a palm frond hat, or thrill to an outrigger ride or a catamaran sail. By night, you can dine outdoors by the light of flickering torches, or go dancing—barefoot, if you like—at any of the resorts.

There's always something doing at Waikiki—the Cherry Blossom Festival in April, Lei Day in May, Kamehameha Day in June, canoe regattas in July, the Hula Festival in August and Aloha Week, the "Mardi Gras of the Pacific," in October.

It's fun, too, to make a round-the-island tour by bus, U-drive car, or fringed-top jeep. The island

of Oahu offers much variety, from Oriental temples to sweeping seascapes. But even a trip through its quiet countryside doesn't quite prepare one for the transition from the hustle of Honolulu to the calm of the neighbor islands.

Take the flight to the island of Maui. Your plane puts down on an airstrip surrounded by pineapple and sugar cane fields, with hardly a house—much less a skyscraper—in sight. On one hand rises the 10,000-foot high hulk of Haleakala—literally "the house of the sun," and on the other the jagged West Maui Mountains. The sightseeing center is Kahului town, with two small but good beach hotels and a surprising outlook of freighters loading at the docks across the bay.

AT HALEAKALA, part of Hawaii National Park, you can take an escorted pack trip down to the moonlike crater floor, or simply admire the awesome view from above. Another "must" on Maui is the round-the-island drive to Hana, often likened to Italy's famed Amalfi Drive.

Over at Hilo, another bay town on the island of Hawaii, you'll find a touch of Japan, with signs in Japanese characters, restaurants that feature sushi, and general stores whose shelves are stacked with bolts of bright yukata cloth. Sampans—Japanese fishing boats—bob about the harbor, and a beauty spot of the town is the immaculately landscaped park, complete with pagoda, right at the water's edge.

On the opposite coast is Kona, a sleepy little place where you can just fall apart with relaxation or try marlin fishing in some of the Pacific's finest game fishing waters.

IN MID-ISLAND is the more spectacular part of Hawaii National Park and the islands' most unusual hotel, Volcano House. It sits on the edge of Kilauea Crater, and ghostly jets of steam fizzle out from fern clusters a few steps from the lobby. A hiking trail begins at the front door to the Halemaumau firepit. Another eerie experience is a walk through the pitch-black Thurston Lava Tube.

Over on the island of Kauai are the most whimsical accommodations in Hawaii—the Coco Palms Hotel, where the help, clothed in sarongs,

## Applications for Summer School Are Multiplying

By YVONNE MAUZEY  
DR 6-4083

Applications for summer school are flooding in. We had 155 applications last Friday and expect more. Scheduling of classes will be started immediately. There will also be a few Canyon children attending the summer school at Rheem.

As you know, the kindergarten children who live in Canyon attend Rheem School now. Our present school enrollment is 406. Mr. Toll's predicted growth for fall enrollment is 499. Let's watch

## ORINDA SUN

FOURTH SECTION  
Friday, April 21, 1961

and see how close he comes.

As of the last house count of March 21 our school would be entitled to 2929 square feet more space or three classrooms. We are growing by leaps and bounds.

RHEEM SCHOOL is just starting a Pop Warner league and we have a list of 16 boys signed up for the fall football.

Charles Toll and his wife Dorothy were in Coolidge, Arizona, over Easter on a trip we wish could have been made for other

reasons. Dorothy's mother, 83, passed away. She has been in poor health for some time. So this was partly expected. Our condolences to you both.

The date for the area trustee dinner has been changed to May 4 at 6:30 p.m. The catered dinner will be served by the Parents' Club members to the Acalanes High School District board and superintendents.

Last month pins were awarded to the student body representatives as follows: Richard Spatz, president's pin; Ivan Clark, vice president; Tina Kulkin, vice president; Lynne Bartz, secretary; Marty Loomis, treasurer; Hugh Loomis, activity chairman. Each of the above pins were inscribed with the office held.

Class representatives receiving plain pins: Keirn Allison, Teddy Kalivas and Steve Mastic (fourth grade); Cheryl Gilard, Craig Austin, Jim Barty (fifth grade); Michael Lathan, Linia McCabe, Valerie Winger (sixth grade); Bill Brown, Tim Shea (seventh grade); Cole Reif, Bill Harlow, Steve Totten (eighth grade). You

have all done a wonderful job. Congratulations!

THE COOPERATIVE Art Association is now taking applications for the 1961-62 classes. During the last year classes have been held at the Rheem School for children of the Moraga and Canyon areas in grades four through eight. The annual tea and exhibit, where each child from all the classes will have one picture exhibited will be held at the Rheem Estate Friday, May 12, from 3 to 5 p.m. and Saturday, May 13, 1 to 4:30 p.m.

Jane McCampbell is membership chairman for this area. Anyone interested may phone her at DR 6-5871. It is hoped that children attending Santa Maria School and Canyon School will participate in the classes.

We would like to be sure that Santa Maria and Canyon people know that this is an area thing, not just for children who attend the school where the classes are held. Mrs. E. R. Schneider is president of the association and Mrs. A. R. Holland executive secretary.

DON'T FORGET social dancing for the sixth, seventh and eighth grades only! Starting tonight, April 21, and to be the first and third Fridays of each month thereafter from 7:30 to 9 p.m. at the old Moraga School. Kids, please bring your favorite records. Be sure to put your name on them so they will be returned. Party dress.

Last week parents of Boy Scout Troop No. 212 met at the Old School to elect officers for the Scout Committee. Committee chairman, H. F. Latter Jr.; vice committee chairman, B. P. Christensen; secretary, E. J. Everett; treasurer, J. C. Hermansen; scoutmaster is A. A. McIver. These committee members will appoint appropriate committees at some later meeting.

The new officers of the Scout Committee expect to have an active and successful year. All fathers of the boys who are interested in scouting and helping their boys, please contact H. F. Latter, to do your part in the planning of the good times ahead for your boys.

## Hats Off To...

### Dr. Leo Brewer, Science Award Winning Professor

For distinguished service in the field of science, a salute to Dr. Leo Brewer, one of the five recent recipients of the TEC's Ernest Orlando Lawrence Memorial Award for 1961.

"For singular contribution and leadership in the development of high temperature chemistry which have permitted major advances in reactor development..."

A professor at US in the College of Chemistry, Dr. Brewer received his B.S. degree at Cal. Tech in 1940, his Ph.D. at UC in 1942... was honored with a Guggenheim Memorial Fellowship in 1950 at which time the family lived in Europe where he did considerable research at the Imperial College in London... During the war he worked on the Manhattan Project, is a member of the National Academy of Sciences, American Chemical Society and Faraday Society. Locally, he aided the start of the Orinda Schools' science project at Del Rey.

An avid gardener and partial to native plantings, Dr. Brewer authors articles for garden journals, is constantly called upon for planting advice by his neighbors and friends.

Drifts of blooming daffodils herald spring at his hilltop house on Vista Del Orinda, where he lives with his wife, Rose (a Native Daughter), and his three children, Beth Ann, 9; Roger, 7, and Gail, 5.

We join the field of science in saluting Dr. Brewer.

### Cub Scouts Get Awards; See Dog Show

Cub Pack 238 met recently at Fairview School under the direction of Bob Waters, cubmaster. Den 8 conducted the opening flag ceremony.

New Bobcats admitted to the Pack were Brad Pierson, Marshall Young and Mark Rogers.

Graduating from Webelo Den into Scouting were Joel McDonald, Kent Johnson, Hayward Kaiser and Bob Costa. Bob Lorton, leader of Scout Troop 243, welcomed the boys into Scouting.

Clarke Radcliff was presented with a Den chief certificate for serving with Den 1 for the past year.

Pack 238 was the top pack of the entire Or-La-mo District in the Scout Exhibition and a blue ribbon was presented to the institutional representative, Robert Vincent.

A musical skit was then presented by Den 1 under the direction of Mrs. Martha Radcliff, Den mother.

Also on the program, under direction of Howard Hooper, was an obedience performance by the Mt. Diablo Dog Club.

Awards were presented to the following cubs: Wolf awards to Tim Pickens, Paul Cardinet, John Holmes, Kirk Beyer, Kent Osborne, Robert Spencer and Jack Anderson; also Bill Radcliffe, Doug Simonds, John Von Colditz and Gary Martin. Silver arrow on Bear was awarded Chris Nelson. Receiving Webelo awards were Kent Johnson and Joel McDonald.

### Safeway Builds Garden Center, Gift Shop

A Garden Center is now under construction on the upper west portion of Safeway's parking lot. A pioneer venture by Safeway, the Garden Center will encompass 5000 square feet and have a complete line of nursery items from living plants to insecticides and fertilizer.

In addition there will be a 1350 square foot Gift Shop of rustic design, with an all-glass front. The Gift Shop will specialize in gift items related to the nursery.

Arthur Iwata of Berkeley designed the Garden Center and Gift Shop. The Garden Center will have a plastic corrugated roof. No plants will be grown at the site, it will be an entirely retail sales operation.

Construction of the Garden Center is expected to be completed late in May. In addition to the complete line of nursery items, the manager of the center will be qualified to answer questions pertaining to horticulture.

### Lose a Bike? Call the Sheriff

Sheriff Walter F. Young today announced that 40 bikes are presently on hand and slated for future auctions but could possibly be returned to rightful owners if they were aware these bikes were being held at his Martinez office.

The Sheriff Juvenile Bureau keeps records on reports of lost, stolen and recovered bicycles.

The majority of the bikes on hand are from the central county area.

These bikes have been on hand since November, 1960. Bikes recovered prior to that time have been sold.

Sheriff Young urges owners to jot down the serial number of their bikes, keeping this and a complete description of the bike recorded at home. This would aid the owner in effecting future recoveries.

Claimants can view bikes at Martinez, Monday through Friday, 8 a.m. to 4:30 p.m. by contacting Deputy Monroe Stinson, property clerk, sheriff's office.

### Alumni Co-Chairmen

Dr. Donald Prieve of Danville and Mrs. Leland Scott Jr. of Lafayette were co-chairmen of the University of California alumni scholarship committee annual "Spring Fling" dance, held last Friday at the Diablo Country Club.

# Annual Spring Art Show Is Tomorrow and Sunday

Plans for the Diablo Art Association Annual Spring Show are in full swing, announces Kathy Hassler, exhibit chairman.

The show is scheduled for Saturday, from 10 a.m. to 10 p.m., and Sunday from 10 a.m. to 5 p.m. at the Recreation Building in Walnut Creek. Friday evening will open the spring show with an invitational preview for the artists, their guests and the press.

Jerry Kronenberg, hostess for the preview, promises a sparkling event with punch and chef d'oeuvre for the bon vivants.

Designer for the art show, Arthur Odert, has chosen St. Francis and the Gardens as the theme for the show. Odert promises some lovely effects from Walnut Creek sculptor of driftwood, Jack Richards.

The spring show is conducted by the Diablo Art Association and only members may show paintings.

Participating artists number in the seventies and 200 objects of art have been counted including mosaics, jewelry, ceramics, pottery and paintings. Everyone is invited to see this show without charge and each may cast a vote for the most popular words of art.

Resulting winners will receive cash awards and ribbons on Sunday. Counted among exhibiting

artists are such distinguished names as Joseph Bennett, well known seascape artist from Piedmont, Eleanor and Robert El-cocht with collages and landscapes, Jack Laycox with watercolor and oils, Fred Pring with some new spring watercolors.

# Pay Dialing Speeded Up

Pay telephone service in most Bay Area communities will be speeded with the installation of new equipment starting this month, Pacific Telephone announced today.

The change-over means that pay phone customers will be able to dial their own calls to most Bay Area points.

Operators will come in on the line only to collect the initial deposit and any overtime charges. All San Francisco, South San Francisco, Richmond, Hayward and most East Bay pay phones will shift to the new system with the change-over starting in mid-April and finishing in June.

New dialing instructions will be placed on the pay phones as the new service becomes available.

# Young Journalists Meet at St. Mary's

High school journalists from as far away as Arizona and Washington will meet at Saint Mary's College, Saturday, May 13, for the 29th Annual Western Catholic High School Press Convention.

The convention, oldest affair of its kind in the West, annually brings together delegates from Catholic high schools for a day of assemblies, seminars, and publications competition.

Schools unable to send representatives will submit newspapers, newsletters and magazines by mail for judging.

Saint Mary's student journalism society, the Fourth Estate, is sponsoring the press conclave.

General chairman is Fourth Estate President Jack Quintero of San Rafael.

# Thomas Leighton Will Address Art Association

Thomas Leighton, F.I.A.L., S.W.A., artist, art instructor and lecturer, will be featured speaker for the Diablo Art Association

Monday in the Contra Costa Realtors building on Locust Street in Walnut Creek. The meeting will start at 7:30 p.m.

Born in Toronto, Canada, Leighton studied at the University of

Toronto under Carl Scheffler and also with John Russell, Canada's greatest painter.

LEIGHTON has held many teaching positions including a staff position and assistant to John Russell in the Russell Academy of Art in Toronto, Canada.

He was director of fine arts at Ridley College, St. Catherine, Ontario. He is now director of Leighton Studio, San Francisco.

Lillian Molina, Walnut Creek artist, will introduce the idea of an informal art book review section to give group opportunity for

artists or persons interested in art to become further exposed to current, rare or reserved art books which are difficult or too expensive to obtain. Mrs. Molina suggests groups be limited to 50 persons so all may share illustrations and discussions.

Anyone interested in this Art Book Section may write Diablo Art Association, Box 124, Walnut Creek, California.
